

# 200 Paul Ave.

## SAN FRANCISCO, CALIFORNIA

### ABOUT

SFR1 (200 Paul Ave.) is the most highly connected building in San Francisco. As one of the premier carrier facilities in Northern California, the facility is seismically rated for protection against earthquakes. Acquired in 2006, Digital Realty is the leading colocation and interconnection provider within the facility.

San Francisco is one of the largest colocation markets in the U.S. Located just south of the downtown area, SFR1 provides access to numerous leading domestic and international carriers, as well as physical connection points to the world's telecommunications networks and backbones.

SFR1's carrier rich facility makes it an ideal interconnection point to reach the entire West Coast. By leveraging Digital Realty's Metro Connect solution, customers at this location can directly access the wide range of services provided by Digital Realty customers located at Digital Realty's SCL1 and SCL2 facilities.
