EQUINIX NEW YORK DATA CENTERS

Equinix helps companies accelerate business performance by connecting them to their customers and partners inside the world's most-networked data centers. Our New York data centers are business hubs for 850+ companies. New York customers can choose from a broad range of network services from 135+ network service providers. They can also interconnect directly to customers and partners in their digital supply chain. Equinix New York metro International Business Exchange™ (IBX®) data centers consist of eleven buildings with approximately 731,000 square feet (67,950+ square meters) of colocation space.

The New York colocation facilities enable customers to be part of a rich industry ecosystem. The New York region features a high concentration of customers in the financial sector for cloud providers targeting financial customers (e.g., data analytics providers) and a dense concentration of ad-tech companies directly connecting on Equinix's Ad-IX™ advertising exchange. Our New York data centers are located in Newark (NY1), Bergen (NY7), Secaucus (NY2, NY4, NY5, NY6), Manhattan (NY8 and NY9), Carteret (NY11), Piscataway (NY12) and Elmsford (NY13) and service many of the world's largest companies, including financial services firms, large enterprises and media organizations.

NEW YORK IBX® BENEFITS

• Customer population comprised of many financial services firms, media companies and large enterprises
• Dense concentration of ad-tech companies directly connecting on the Equinix Ad-IX advertising exchange
• Large ecosystem of financial firms, content providers and 135+ networks in the Equinix New York data centers
• Low-latency connectivity to DirectEdge, CBOE, ICAP, Knight Capital, ISE and BOX
