KEY CAPABILITIES

STATE-OF-THE-ART FACILITIES

Strategically located in Dublin, Ireland with high availability and resilience, featuring redundant power, cooling, and network infrastructure.

SCALABILITY & FLEXIBILITY

Modular infrastructure for seamless scaling of compute, storage, and networking resources.

CLOUD INTEGRATION

Hybrid and multi-cloud enablement with direct connectivity to major public cloud providers.

SECURITY & COMPLIANCE

ISO 27001 certified, GDPR-compliant, and equipped with robust physical and cyber security controls.

DISASTER RECOVERY & BUSINESS CONTINUITY

Comprehensive DR solutions, backup services, and 24/7 monitoring.

MANAGED SERVICES

End-to-end data centre management including Smart Hands & Eyes, monitoring, patching, and incident response.

SUSTAINABILITY

Energy-efficient operations leveraging renewable energy sources. Commitment to 100% renewable electricity sourcing and alignment with Kyndryl's global net zero by 2040 target.
